## **HISTORY OF THE CHARLES S. NEER, II, MD AWARD**

*In 1985, Charles S. Neer, II, MD, created a fund to provide recognition for outstanding clinical investigation contributing to the understanding, care or prevention of injuries to the shoulder and elbow. Named after its benefactor, this prestigious award has been presented annually since the first Open Meeting of the American Shoulder and Elbow Surgeons. In 1987, the award was expanded to include both clinical and research categories.*

*The top-graded papers are selected by the Program Committee from the numerous abstracts submitted each year. The chosen Neer Award manuscripts are then reviewed and graded by the Research Committee to determine the final winners. No one who has a manuscript under consideration may evaluate the papers.*

*The Charles S. Neer Award recipients will receive an honorarium and a certificate during the 2023 Open Meeting/Specialty Day.*

**Dr. Charles S. Neer**
